workplace redefined

The boundaries between one's professional and personal lives are constantly blurring, but the traditional workplace has not evolved to reflect this change. Today's employees long to establish meaningful connections between the roles, relationships and responsibilities that make up their lives in order to develop a sense of fluidity and purpose. With its dynamic, campus-like and collaborative environment, Westar I & II transcends the limitations of the outdated workplace by fostering a community that connects and inspires individuals to design a flexible life.

about westerville

"Westar is truly a case study in smart, intentional planning and strategic execution. City leaders saw the potential for this area decades ago and we continue to improve upon and shepherd that vision into reality. That intentionality and follow-through exemplifies what we call 'The Westerville Way.'"

- City Manager Dave Collinsworth.
