The Building

Located in the heart of 39 North and adjacent to the world-renowned Danforth Plant Science Center, the Bio-Research & Development Growth Park Building (BRDG Park) is uniquely positioned to host AG-Tech plant and life-science and clean-tech companies. BRDG Park is designed for companies seeking proximity to top scientists and state-of-the-art core facilities.

The Campus

The Danforth Plant Science Center is one of the most technologically advanced bioscience facilities in the nation. The Center's research is conducted with the goal of looking outward, working toward discoveries that will provide important solutions to big problems, such as drought, malnutrition, hunger and health, as well as preserving our planet.

Class A Lab for Lease at BRDG Park

The Bio Research & Development Growth (BRDG) Park at the Danforth Plant Science Center offers leading bio research facilities with world-class wet labs and office space.
