In 2020, Weston Inc. acquired a 5.5-million square foot industrial portfolio with properties across South Carolina. Our Southeast Industrial Properties portfolio now totals over 7.6 million square feet, and we look forward to acquiring more properties and growing our portfolio of industrial real estate options.

Weston's core purpose is to provide homes for businesses by finding solutions that create value. We are committed to being the “best landlord in town” and promise to be responsive, adaptive and accountable. We can help you find the right facility — right where you need it.

In addition to the upfront investment in construction and redevelopment of the properties, Weston is committed to our investment as a landlord, dedicating ourselves to doing whatever is necessary for the tenant's success. As a result, we have received an exceptional reputation among businesses, and the demand for Weston properties and partnership has led to us becoming the top industrial landlord in South Carolina.
