SUMMARY

Located just west of I-15 in the rapidly growing city of Spanish Fork, the GLH Development Park is set to become a premier industrial center in southern Utah County. With construction spanning from 2024 to 2031, this expansive park is designed to meet the needs of today's industrial users, offering flexible options and key advantages for distribution and logistics.

PROPERTY HIGHLIGHTS

- Tall clear heights to accommodate various industrial uses
- Ample parking for trucks and employees, supporting high-capacity operations
- Build-to-suit options available to tailor space to tenant needs
- Prime location for distribution, with Springville positioned perfectly within a 10-hour drive of major California ports, making it ideal for transportation and logistics companies needing to comply with driver rest requirements
- Proximity to I-15, ensuring easy access to regional and national distribution networks

AT A GLANCE

Utah County is one of the fastest-growing regions in the state, with its population increasing by 18.1% between 2017 and 2022.

Projections indicate an additional 16.4% growth by 2027, reflecting the area’s strong appeal for families, young professionals, and businesses.

This growth is driven by the county’s strategic location, robust economy, and access to quality education and employment opportunities

UTAH CROSSROADS OF THE WEST

Aptly nicknamed “The Crossroads of the West,” Utah is strategically located in the center of the Western United States, with major interstate, rail, and airport connections. Utah is connected to and serves as a key logistics relief valve for Western U.S. ports, as evidenced by the recently-announced Inland Port spanning 16,000 acres in Salt Lake City’s North West quadrant. The state’s proximity to I-80, I-84 and I-70 (for east/west access) and I-15 (for north/south access) provides compelling regional accessibility.
