

WHY QUIKSPACE IS A GOOD SOLUTION FOR YOUR BUSINESS

As a small business owner, you may be wondering how you can find the right retail space for your business.

The answer is simple: **QUIKSPACE**
MACERICH

With targeted location options, flexible lease terms and a supportive team, QuikSpace makes it easy for entrepreneurs to grow their businesses and succeed. It certainly proved to be the case for Toy World, 3D Innovations, and SolePlay 909. While each of these tenants have unique business needs, they all shared the same positive experience and outcome with QuikSpace.

IN THEIR WORDS

Meet Yasin Isah, the owner of Toy World. Yasin knew that his first location should be in a mall where there was already an established customer base. He turned to QuikSpace to search for a location for a mall he had interest. Not only did he find his first in-line space, but from the lease draft, through support for signage, to help putting together his grand opening, Yasin found a pressure-free environment to develop and plan his business, including a new second-store location. *"The leasing process is easy. Anyone can do it. They make you comfortable to do your business."*

Now meet Lucy, the owner of 3D Innovations. 3D Innovations is a unique and non-traditional mall retailer, specializing in converting personal memories into crystal 3D models etched using a laser beam. Knowing they needed to put their product in front of customers, leasing space in a mall would get them in front of a wide base of consumers. Lucy chose to work with QuikSpace. *"The flexible lease terms did help us commit to the space, and Macerich has been very helpful."* Here's to Lucy's future goals for her business, continuing to expand and see her brand grow.

Alex Ivory, the owner of SolePlay909, is another QuikSpace tenant who valued the simplicity of the process and ease of finding the right space. SolePlay909 is a niche store, specializes in sneakers and the secondary market for them. According to Alex, "It's as simple as an email. You reach out, you let them know what you have going on and you would like to see everything available. And that right there starts the whole process." *"The flexibility offered through QuikSpace was key to giving Alex and his partner opportunity to expand their business. There's a lot of opportunities with Macerich."*

So, what are you waiting for?

QuikSpace has just what you've been searching for.
